IN BRIEF

Fec. hostels major issues in DUSU polls

NEW DELHI
As students get ready for polls to the Delhi University Students' Union, being held after four years, age-old issues and some new ones have taken centre stage — shortage of hostel rooms, rising tuition fee, women's safety, and the government's new National Education Policy. » Page 2

Jana Sena, TDP to fight 2024 A.P. polls together

JSP leader Pawan Kalyan announces move after meeting TDP chief Chandrababu Naidu in prison; he says a proposal has been tabled before PM Narendra Modi to bring the BJP too into the alliance

T. Appala Naidu
RAJAMAHENDRAVARAM

Jana Sena Party (JSP) president K. Pawan Kalyan on Thursday announced that his party and the Telugu Desam Party (TDP) would form an alliance and together contest against the YSR Congress Party in the 2024 Assembly election in Andhra Pradesh.

Mr. Kalyan made the announcement immediately after meeting former Chief Minister and TDP chief N. Chandrababu Naidu, who is lodged at the Rajamundry Central Prison. "The decision has been taken only keeping in view the welfare of the people of the State. It is not meant for political mileage," Mr. Kalyan said.

JSP chief K. Pawan Kalyan with TDP leaders Nandamuri Balakrishna and Nara Lokesh in Rajamundry on Thursday. SPECIAL ARRANGEMENT

Mr. Naidu's son Nara Lokesh and brother-in-law and actor Nandamuri Lakrishna, held talks for about 45 minutes with the former Chief Minister in the prison.

Tri-party alliance
On communicating the proposal of the alliance to the BJP, Mr. Kalyan said: "I

have already proposed the idea of forming an alliance with JSP, TDP and BJP. The idea has been tabled before Prime Minister Narendra Modi. I hope that the BJP will also agree to this proposal for the 2024 elections in Andhra Pradesh." On September 10, the Jagann Mohan Reddy-led

State government and police officials stopped me on the Andhra-Telangana border while I was proceeding towards Vijayawada. The government and police created an environment of 'civil war', in which our party had to confront with the police. However, we did not wish to fight a civil war," Mr. Kalyan said, on what drove him to the decision.

"The arrest of people like former Chief Minister N. Chandrababu Naidu sends a signal that democracy is in danger in Andhra Pradesh. The YSRCP has created an environment based on which I had to take a decision for the alliance with the TDP," said Mr. Kalyan.

Disintegrating Sanatana Dharma is hidden agenda of INDIA bloc, says Modi

Shubhomoy Sikdar
KANKER/RAIPUR

Launching a frontal attack on the Indian National Developmental, Inclusive Alliance (INDIA), Prime Minister Narendra Modi on Thursday accused it of having the hidden agenda of "disintegrating Sanatana Dharma".

He made his remarks criticizing the Opposition on the ongoing Sanatana row while addressing rallies in Madhya Pradesh's Bina district and Chhattisgarh's Raigarh.

Mr. Modi, who had earlier led his ministerial colleagues that Tamil Nadu Minister Udhayanidhi Stalin's remarks comparing Sanatana Dharma to diseases such as dengue required a "proper response", took up the attacking role himself. "By wiping off Sanatana

Poll pitch: Prime Minister Narendra Modi waves at the public in Bina district of Madhya Pradesh on Thursday. PTI

they want to push the country towards one thousand years of slavery again. But we have to join forces to stop such powers. With our organisations, might and our unity in every corner of the country, we have to foil their plans," said Mr. Modi while addressing the public in Bina after laying foundation stone for projects worth ₹50,000 crore. He also invoked a host of historical and mytholog-

ical figures to underscore that Sanatana represented "thoughts, values, and traditions that have connected India for thousands of years". "Sanatana culture was a reflection of Dalit icon saint Ravidas. It had inspired Mahatma Gandhi to run a movement against untouchability..." said Mr. Modi.

Submit items found in Gyanvapi survey to DM, court tells ASI

The Hindu Bureau
NEW DELHI

The Varanasi District Court has directed the Archaeological Survey of India (ASI) to submit objects found during its survey of the Gyanvapi mosque, which are related to the dhyan or are historically significant, with the District Magistrate (DM). District Judge A.K. Vishwas on Wednesday also directed the DM, or any person nominated by him, to protect the objects submitted by the ASI and present them before the court when required.

The order was passed by the court while allowing two applications moved by Rakhi Singh, a plaintiff in the Shrangari Gauri worship and shipping suit of 2022, which demands worship rights inside the Gyanvapi mosque. The suit is pending before this court.

Advocate Sarabh Tiwari, appearing for Mr. Singh, informed that in one of the applications, his client had

The Gyanvapi mosque complex, in Varanasi. PTI

sought an order for "preserving" the Gyanvapi Mosque premises, claiming that the mosque committee was destroying the historical evidence related to the Hindu religion available at the site.

The second application requests sealing and protecting certain areas of Gyanvapi Mosque premises so that no damage can be done to symbols of Hinduism by either the mosque committee or those who come to the mosque to offer namaz, Mr. Tiwari said.

Quash report by Editors Guild: Meitei body to HC

The PIL also requested for directions barring use of the said report by any authority or agency; journalists' unions based in Imphal had said the report was 'riddled with misrepresentations'

Abhinav Lakshman
NEW DELHI

The Manipur High Court has now admitted a public interest litigation (PIL) filed by the International Meiteis Forum (IMF) that seeks to "quash" the fact-finding report published by the Editors Guild of India on the ethnic violence in the State. The PIL also requests for directions barring the use of the said report by any authority or agency looking into the conflict, alleging a nexus between the EGI and "narco-terrorist groups".

A Bench of Acting Chief Justice M.V. Muralidaran and Justice Ananthem Bimol Singh has filed various PILs in the Manipur High Court since the ethnic conflict began, in its most recent one, has marked the Centre, the State government, the Editors Guild of India, the Manipur Working Journalists' Union (AMWJU) and

A Bench of Acting Chief Justice M.V. Muralidaran and Justice Ananthem Bimol Singh has issued notices to all respondents. PTI

file their response even as the Deputy Solicitor-General accepted the notice on behalf of the Union and State governments. The IMF, which has filed various PILs in the Manipur High Court since the ethnic conflict began, in its most recent one, has marked the Centre, the State government, the Editors Guild of India, the Manipur Working Journalists' Union (AMWJU) and

the Meitei community. It drew sharp reactions from journalists' unions based in Imphal, who said that the report was riddled with misrepresentations. An FIR was also registered against members of the Congress MP Gaurav Gogoi with a defamation suit for claiming that a firm she is associated with was granted a Central subsidy of ₹10 crore under the Pradhan Mantri Kisan Sampada Yojana. Mr. Sarma has threatened legal action and said he will retire from politics if anyone can prove his wife or the firm received any amount. "This is nothing but an attack to malign and defame a 17-year-old Assamese enterprise, which has adhered to every aspect of the law, headed by a woman entrepreneur," Ms. Bhuyan Sarma said.

INBRIEF

Assam CM's wife threatens to sue Cong, MP Gaurav Gogoi

Assam Chief Minister Himanta Biswa Sarma's wife Kinriki Bhuyan Sarma has threatened Congress MP Gaurav Gogoi with a defamation suit for claiming that a firm she is associated with was granted a Central subsidy of ₹10 crore under the Pradhan Mantri Kisan Sampada Yojana. Mr. Sarma has threatened legal action and said he will retire from politics if anyone can prove his wife or the firm received any amount. "This is nothing but an attack to malign and defame a 17-year-old Assamese enterprise, which has adhered to every aspect of the law, headed by a woman entrepreneur," Ms. Bhuyan Sarma said.

VDC member kills wife with service rifle in Rajouri: police

A Village Defence Committee (VDC) member shot dead his wife with the rifle allotted to fight militants in the Pir Panjal Valley's Rajouri district on Thursday. A police spokesman said Thir Ram, a sarpanch from Patnara, fired upon his wife with a .303 rifle during the interwoven night of September 13 and 14. The victim, Neelam Devi, 46, was seriously injured in the incident and shifted to Sub District Hospital, Sunderbani, by the family members. "The victim succumbed to her injuries at the Government Medical College, Jammu, later," the police said. The police lodged a case under section 302 of the Indian Penal Code and Section 30 of the Indian Arms Act.

Uddhav Sanjay Raut seek discharge in defamation case

Shiv Sena (UBT) leaders Uddhav Thackeray and Sanjay Raut on Thursday moved an application in a court in Mumbai seeking discharge in a defamation case filed against them by Rahul Pawar, an MP from the rival Shiv Sena faction led by Maharashtra Chief Minister Eknath Shinde. In his complaint, Mr. Pawar has accused them of publishing defamatory articles against him in Sena (UBT) mouthpiece *Saamna*. Mr. Thackeray and Mr. Raut have sought discharge on the ground that there is no iota of evidence against them. They claimed to be innocent and falsely implicated in the case. Mr. Thackeray is the chief editor of *Saamna*.

Hopeful about Women's Reservation Bill: BJP leader

Natasha Irbhar
NEW DELHI

BJP Mahila Morcha chief Vanathi Srinivasan on Thursday said she was "hopeful" that the Women's Reservation Bill would be cleared sooner than later.

Speaking to *The Hindu*, Ms. Srinivasan said the BJP had long been supporting efforts to clear the Bill and that it was "evident in the Prime Minister Narendra Modi has the focus and intent to get it done". In the run-up to the Special

Session of Parliament from September 18 to 22, there has been speculation that the government may spring the Women's Reservation Bill as one of the "new" bills to be cleared in the new Parliament building. "I have seen the way Prime Minister Modi conducts business on getting more and more women in the party organisation and the programmes of his government that seek to empower women," she said. She said while there was a party that espoused traditional values, the Modi government had expanded

over Ministries such as Defence, Finance and External Affairs to women leaders. "We recognise the different roles that women occupy and empower women not just in those roles but in the larger context as well," she said. In earlier non-BJP governments, women Ministers were given portfolios without any concern for the party organisation or the legacy of a powerful dynasty to get anywhere. Under the Modi government, Finance, Defence and External Affairs have been given to women who do not have a huge political legacy. Women are deeply rooted in our *sanskriti* (culture) but also

Vanathi Srinivasan

"Gruha Lakshmi" scheme, that appeared to run contrary to Prime Minister Narendra Modi's injunctions against freebies, Ms. Srinivasan said the impact on the state finance and whether the programme would ultimately empower women were the key. "When political parties offer such freebies without any concern for the state finance, it becomes problematic. This is not the case in Madhya Pradesh, Karnataka and Andhra Pradesh and Punjab, the treasury is completely gone, they have no

money left for social welfare and infrastructure. When you don't have money to build schools, then what is the benefit of giving them ₹200? Ultimately, it is to the detriment of empowerment. There has to be a larger purpose for this," she said. Ms. Srinivasan said the Mahila Morcha is holding various protests and rallies for the Bill, reaching out to the grassroots. "We are professionally qualified women, social influencers and we will be the first in the run-up to the Lok Sabha election next year."

SC information a click away as it joins National Judicial Data Grid

Krishnakant Rajagopal
NEW DELHI

Real-time data on the filing and disposal of cases in the Supreme Court will now be available at the fingertips of the common man, just a click of a mouse away.

Chief Justice of India D.Y. Chandrachud announced the onboarding of the Supreme Court on the National Judicial Data Grid (NJDG) in open court on Thursday.

The NJDG portal is a national repository of data relating to cases instituted, pending and disposed of by the courts across the length and breadth of the country. "The onboarding of Supreme Court case data on the NJDG is based on the 'open data policy'. Now, our data will be uploaded on the NJDG on a real-time and daily basis... At the click of a button, you can get information about the institution, disposal and pendency of cases type-wise, year-wise, stage-wise and quorum-wise," Chief Justice Chandrachud explained.

Besides, onboarding on the NJDG would reach the judiciary increased coordination, informed decision making, optimum deployment of resources and manpower, single source of data and a huge potential for high-quality research work. The Chief Justice said

Chief Justice D.Y. Chandrachud said data will be uploaded on a real-time basis. PTI

the information available on the NJDG-SCJ (Supreme Court of India) portal would include the current pendency of civil and criminal cases, filing and disposal of cases in the previous month, number of cases pending before three-judge, five-judge and even nine-judge Benches.

Cases pending So far, 2023 has seen total pendency of 64,854 registered cases and 15,490 un-registered cases (yet to be cleared by the Registry) in the top court. The Supreme Court page on the NJDG shows that 583 three-judge Bench matters, 288 five-judge Bench cases, 21 seven-judge Bench and 135 (all of them civil) nine-judge bench references are pending. The cases filed in the Supreme Court amount to 5,412 and those disposed of last month were 5,033. The Chief Justice said he would be forming a special three-judge Benches to clear pending cases.

and deaths on the Centre's digital registration system (CRS) portal and share data with the ICL which functions under the Union Home Ministry. The Act authorises the government to "collect Aadhaar numbers of parents and informants..."

Filing cases on those bursting firecrackers not a solution: SC

Krishnadas Rajagopal NEW DELHI

The Supreme Court on Thursday said filing cases against persons bursting firecrackers during festivals such as Deepavali might not be the solution against the dangers they pose to health and environment.

"Cases against persons bursting firecrackers may not be the solution. You will have to find the source from where it (firecrackers) is coming and stop that," Justice A.S. Bopanna, heading a Special Bench comprising Justice M.M. Sundresh, addressed the Delhi Police.

The police statistics presented in the court showed that from 2016 to August 31, 2023, a total of 926 cases were registered for sale and storage of firecrackers and 3,120 cases filed for bursting firecrackers.

The police have arrested 2,616 persons for bursting crackers and 749 for sale and storage. The police said 51,692.413 kg of firecrackers were seized in Delhi from 2016 to August 2023.

The huge inflow of crackers is despite a ban imposed on them by the Supreme Court. The Delhi government has also prohibited the sale and bursting of firecrackers.

However, amicus Curiae, senior advocate Gopal Sankaranarayanan said crackers make their way into the national capital, especially ahead of the Deepavali season in November.

Top priority Ms. Bharti said the Delhi Police were giving top priority to prevent the sale, storage and bursting of firecrackers. District police chiefs had constituted flying squads; unauthorised stocks had been seized and sealed and an awareness campaign was on.

PMMSY: bridging gaps in the fisheries sector

In 2020, when the Indian fisheries sector was preparing for a big leap due to the reforms initiated by Prime Minister Narendra Modi, who understood the immense potential of the Blue Economy, and initiated systemic development of the sector...

L. Murugan is Union Minister of State for Fisheries, Animal Husbandry and Dairying, and Information and Broadcasting.

As it completes three years, the PMMSY has successfully pulled inland fisheries from traditional waters, and infused technology, inspiring many talented and enterprising youth to venture into fisheries. Today, young women entrepreneurs from the Kachin Valley are efficiently rearing cold water rainbow trout using a recirculatory aquaculture system.

hatcheries, and is supporting research and genetic improvement of Indian White Shrimp at Chennai. The development of specific pathogen-free brood stock, and domestication of tiger shrimp in the Andaman Islands, India is now counted among the world's top three countries in fish and aquaculture production...

Thanks to this fresh chunk of investment and focused attention, the PMMSY began to address critical gaps in the fisheries value chain from fish production, productivity and quality to technology, post-harvest infrastructure and marketing. It identified key strategic priority areas: marine fisheries, inland fisheries, fishermen's welfare, infrastructure and post-harvest management, cold water fisheries, ornamental fisheries, aquatic life management, and sea weed cultivation, among others.

India is now counted among the world's top three countries in fish and aquaculture production

8 injured as business jet veers off Mumbai airport runway, breaks into two

The Hindu Bureau NEW DELHI

Flight operations at Mumbai international airport were halted for an hour after a business jet veered off the runway, after a business jet arriving from Vishakhapatnam veered off the runway.

The jet, with the call sign VT-DBL, "veered off" the primary runway (runway 27) and entered the adjoining grass surface, following bad weather and continuous rainfall.

The eight people on board, including two pilots, were injured and rushed to hospitals by the airport authorities.

Flight scare: Officials gathering around the damaged aircraft after it veered off the runway at the Mumbai airport on Thursday. PTI

The pilots are reported to be in a serious condition. "On 14.09.2023, M/s VSR Ventures Learjet 45 aircraft VT-DBL, operating a flight from Vizag to Mumbai with its passengers and two crew members on board, veered off the runway at Mumbai International Airport. The incident occurred at approximately 17:02 p.m.," the spokesperson of Mumbai International Airport Ltd. (MIAL) said in a statement.

FAITH Teachings of the Ramayana

Vedas made their appearance in the form of the Ramayana. They reveal things that are not known to us (Vedayithi-erthi Vedas). Akkarakkani Srinidhi swamy said in a discourse that Lord Rama exhibited the tenets codified in the Vedas through His conduct and behaviour. The Vedas are the source of dharma, and Sri Rama was the upholder and embodiment of dharma.

All reported births, deaths to be digitally registered from Oct. 1

They will be registered on the Centre's portal; amended law paves way for use of birth certificate as single document for various services

The Hindu Bureau
NEW DELHI

All reported births and deaths in the country will be digitally registered on the Centre's portal from October 1, according to a government notification.

The Registration of Births and Deaths (Amendment) Act, 2023 that paves the way for digital birth certificates will come into effect from October 1. The digital birth certificates will be a single document to be used for admission to educational institutions, applications for driving licence, government jobs, passports or Aadhaar, voter enrolment, and registration of marriage, and others.

"In exercise of the powers conferred by sub-section (2) of Section 1 of the Registration of Births and

Census Commissioner, Mritunjay Kumar Narayan.

The centralised database will also update the National Population Register (NPR), ration cards, property registration, and electoral rolls.

The NPR, first compiled in 2010 and updated in 2015 through door-to-door

be a single document to be used for admission to educational institutions, applications for driving licence, government jobs, passports or Aadhaar, voter enrolment, and registration of marriage, and others.

"In exercise of the powers conferred by sub-section (2) of Section 1 of the Registration of Births and Deaths (Amendment) Act, 2023 (20 of 2023), the Central government hereby appoints the 1st day of October 2023 as the date on which the provisions of the said Act shall come into force," said a notification by Registrar-General and

Census Commissioner, Mritunjay Kumar Narayan.

The centralised database will also update the National Population Register (NPR), ration cards, property registration, and electoral rolls.

The NPR, first compiled in 2010 and updated in 2015 through door-to-door enumeration, already has a database of 119 crore residents. The NPR is the first step to the creation of National Register of Citizens (NRC) as per the Citizenship Act.

It will be compulsory for the States to register births

and deaths on the Centre's Civil Registration System (CRS) portal and share data with the RGI which functions under the Union Home Ministry. The Act authorises the government to "collect Aadhaar numbers of parents and informant, if available, in case of birth registration".

Currently, a parent voluntarily provides Aadhaar number for a newborn's birth certificate generated through the CRS. As on March 31, Aadhaar has a saturation of 93% for a projected population of 138.72 crore.

IN BRIEF

LIC hands over cheque for ₹1,831.09-cr. dividend to FM

The Life Insurance Corporation of India (LIC) on Thursday paid a dividend of ₹1,831.09 crore to the Centre for 2022-23. Chairperson Siddhartha Mohanty handed over the dividend cheque to Finance Minister Nirmala Sitharaman. Additional Secretary to the Centre's Department of Financial Services, along with LIC's managing directors M. Jagannath, Tabish Pandey, Sat Pal Bhanoji and R. Doraiswamy, and ZM (C/O) of Northern Zone J.P.S. Raju were present.

NMDC increases iron ore prices by ₹300 per tonne

State-owned mining major NMDC has increased iron ore prices by ₹300 a tonne. With effect from September 14, lump ore prices have been fixed at ₹4,950 and that of fines at ₹4,200. The announcement saw NMDC shares touching a new 52-week high of ₹550.00 each intra-day on the BSE before closing 5.89% higher at ₹50.20 apiece. Coming amid a rising demand for steel, Thursday's increase reverses the August 15 reduction and pegs the price to the July 18 level.

Sai Silks (Kalamandir) sets IPO price band at ₹210-224 a share

Sai Silks (Kalamandir) Ltd. has announced to open its initial public offering of equity shares on September 20. The IPO comprises a fresh issue aggregating up to ₹600 crore and an offer for sale up to 2,70,72,000 equity shares by selling shareholders. The IPO will close on September 22. The price band has been fixed at ₹210-222 per share. Bids can be made for a minimum of 67 shares and in multiples of 67 shares thereafter, the company said.

Realty firm Signature Global unveils ₹730 cr. IPO

Real estate firm Signature Global (India) Ltd. has announced to tap the capital market with a public issue of its equity shares on Wednesday, September 20, 2023 and set the price band for the issue at ₹365 to ₹385 per equity share of face value of ₹1. The initial public offer (IPO) aggregating up to ₹730 crore comprises a fresh issue of equity shares aggregating up to ₹603 crore and an offer for sale aggregating up to ₹127 crore by the International Finance Corporation, the selling shareholder. The offer will close on Friday, September 22, 2023.

Rubber Board to increase area under rubber in Northeast States

Wholesale prices continue to fall

August's deflation in wholesale prices narrows to 0.52% from 1.36% recorded in July. Fuel and power prices, whose year-over-year decline more than halved from -12.8% in July to -6% in August, led the narrowing in the deflation rate

The Hindu Bureau NEW DELHI

India's wholesale prices remained in deflationary mode for the fifth month in a row in August but the decline in prices narrowed to 0.52% from 1.36% in July, even as inflation in food and primary articles slowed to about 6% from more than 7.5% in the previous month.

The narrowing in the deflation rate was largely driven by fuel and power prices, whose year-over-year decline more than halved from -12.8% in July

Falling prices

Wholesale prices fell marginally year-over-year in August despite wholesale food inflation remaining elevated.

Vegetable prices rose 4% in August compared with 62.1% in July, while prices of pulses and oilseeds were up 1.7% in July.

Wholesale deflation to the fall in prices of minerals, basic metals, chemicals, etc.

rising 0.33% in August compared with 2.01% in July. Sequentially, however, the Wholesale Price Index logged inflation for the second successive month,

declines, while manufactured products' prices rose for the first time in four months, albeit at a marginal pace of 0.14%.

The Commerce and Industry Ministry attributed the negative rate of inflation "primarily to the fall in prices of mineral oils, basic metals, chemicals & chemical products, textiles and food products".

While the wholesale food index was up 5.6%, primary food inflation remained elevated at 10.6% in August after hitting a decade-high of 14.3% in July, with vegetable prices ris-

ing 48.4% compared with 62.1% in July.

Inflation in cereals eased to a three-month low of 7.25% in August, but paddy prices surged 9.2% and pulses by 10.5%, the highest pace in at least six months for both items.

Onion prices shot up 31.4% in August, compared with 7.1% in July. Milk price inflation eased to a six-month low of 7.8% but was only marginally slower than the 8.5% recorded in July. Economists expect wholesale prices to rebound from the deflationary trend in the coming months.

ECB raises rates again even as threat of recession grows

Associated Press FRANKFURT

The European Central Bank piled on a 10th straight interest rate increase Thursday, pressing forward in its fight against stubbornly high inflation plaguing consumers even as worries grow that higher borrowing costs could help push the economy into recession.

The quarter-percentage point increase comes as central banks around the world try to judge how much anti-inflation medicine is too much — and what the right time is to

halt their series of rate increases before the economy tips into a downturn and people lose their jobs.

The ECB raised its benchmark rate to 4%, up from minus 0.5% just more than a year ago and the highest since the euro was established in 1999.

Interest rates are at levels that "maintained for a long time, but the ECB will make a substantial contribution to bringing down inflation, President Christine Lagarde said at the world try to judge how much anti-inflation medicine is too much — and what the right time is to

Odisha unveils special subsidy to attract investment in steel

Lalantendu Mishra MUMBAI

The Odisha Government has unveiled a subsidy scheme to attract investment and boost the State's stainless-steel production. The scheme offers 20% capital investment subsidy and electricity duty exemption besides land allocation and Employees Provident Fund reimbursement.

Announcing the scheme at the quarter to bring down inflation, President Christine Lagarde said at the world try to judge how much anti-inflation medicine is too much — and what the right time is to

Mr. Sharma said Jindal Stainless Ltd.'s proposed plant expansion to 3.2 MTPA in Odisha would be a game changer. "This investment represents a substantial commitment to the stainless-steel sector in the State", he added.

"Demand to rise"

"The demand for stainless steel in India is expected to grow at an average of 10% annually over the next few financial years, doubling the growth rate of 4.5% in the last five financial years," observed Anurita Sharma, Director of Iron & Steel, Odisha's Iron & Steel Development Corporation and Exhibitions, the organiser of the event.

Rubber Board to increase area under rubber in Northeast States

The Hindu Bureau

COIMBATORE

The Rubber Board, jointly with the Central government and the Automotive Tyre Manufacturers' Association, is implementing a project to expand the area under natural rubber in the Northeastern States.

Executive Director of Rubber Board M. Vasanthagesan told *The Hindu* on Wednesday in Coonoor that of the 8.5 lakh hectares under rubber in the country, almost 5 lakh hectares was in Kerala and Kanyakumari district of Tamil Nadu and 1 lakh hectares was in Tripura.

In a move to expand the

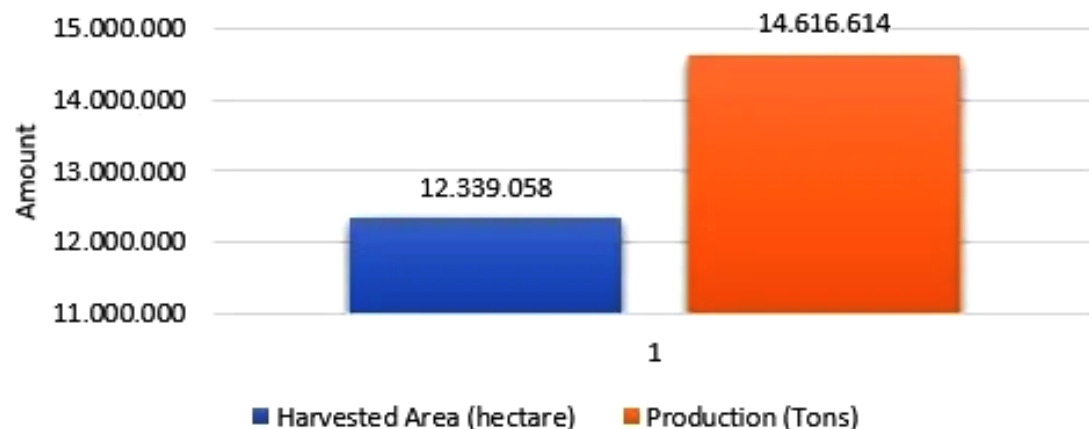

area in non-traditional States, the Rubber Board was implementing a project to bring 2 lakh hectares under natural rubber in the Northeastern States, except Sikkim, but including West Bengal. The tyre manufacturers, who were the main consumers of rubber, were investing ₹1,000 crore in the five-

year project that commenced in 2021. The potential in these States was for 4 lakh hectares, he added. Considering challenges such as landslides, it was decided to plant rubber on 2 lakh hectares.

Almost 27,000 hectares was covered last financial year and about 40,000 hectares would be covered this year. In the next two years, the remaining areas would be brought under rubber cultivation.

The project was expected to bring in socio-economic benefits and States such as Chattisgarh were also evincing interest in rubber cultivation, Mr. Vasanthagesan added.

Harvested Area (hectares) and Natural Rubber Production (tons) All Over The World in 2019

Contribution of Natural Rubber Production (Ton) Based on Continental Area in 2019

10 WORLD'S LAGGEST COUNTRIES IN NATURAL RUBBER PRODUCTION 2019

- 
- The Rubber Board is a statutory body constituted by the Government of India, under the Rubber Act 1947, for the overall development of the rubber industry in the country.
 - Head Office is in Kottayam, Kerala
 - रबर बोर्ड देश में रबर उद्योग के समग्र विकास के लिए रबर अधिनियम 1947 के तहत भारत सरकार द्वारा गठित एक वैधानिक निकाय है।
 - मुख्य कार्यालय कोट्टायम, केरल में है
- 

- What are Key Features of Rubber?

- **About:**

- Natural rubber is a polymer of isoprene, an organic compound.
- Rubber is a coherent elastic solid obtained from the latex of a number of tropical trees of which **Hevea brasiliensis** is the most important.
- Rubber trees have an economic life period of around 32 years in plantations.

- रबर की प्रमुख विशेषताएँ क्या हैं?

- के बारे में:

- प्राकृतिक रबर आइसोप्रीन का एक बहुलक है, जो एक कार्बनिक यौगिक है।
- रबर एक ससंगत लोचदार ठोस है जो कई उष्णकटिबंधीय पेड़ों के लेटेक्स से प्राप्त होता है जिनमें हेविया ब्रासिलिएन्सिस सबसे महत्वपूर्ण है।
- वृक्षारोपण में रबर के पेड़ों की आर्थिक जीवन अवधि लगभग 32 वर्ष होती है।

- **Sources:**

- Natural rubber comes from various sources, the most common being the Pará rubber tree (**Hevea brasiliensis**). It grows well under cultivation and **yields latex** for several years.
- The vines in the **genus Landolphia** yield the Congo rubber. These vines cannot be grown in cultivation and this led to large-scale exploitation of the wild plants in Congo.
- Latex is also present in dandelion milk which can be used to produce rubber.

-

- स्रोत:
- प्राकृतिक रबर विभिन्न स्रोतों से आता है, सबसे आम है पारा रबर का पेड़ (हेविया ब्रासिलिएन्सिस)। यह खेती में अच्छी तरह से बढ़ता है और कई वर्षों तक लेटेक्स की पैदावार देता है।
- लैंडोल्फिया प्रजाति की लताएं कांगो रबर पैदा करती हैं। इन लताओं को खेती में नहीं उगाया जा सकता और इसके कारण कांगो में जंगली पौधों का बड़े पैमाने पर शोषण हुआ।
- डैंडिलियन दूध में लेटेक्स भी मौजूद होता है जिसका उपयोग रबर बनाने के लिए किया जा सकता है।

- **Precipitation and Temperature:**

- An evenly distributed rainfall with **at least 100 rainy days a year** and a temperature range of about **20 to 34°C** are optimum conditions for the growth of the Hevea rubber tree.
- **A humidity of around 80%, 2000 hours of sunshine, and absence of strong winds** are also necessary for the best results.

- वर्षा एवं तापमान:

- साल में कम से कम 100 बरसाती दिनों के साथ समान रूप से वितरित वर्षा और लगभग 20 से 34°C का तापमान हेविया रबर के पेड़ की वृद्धि के लिए इष्टतम स्थितियाँ हैं।
- सर्वोत्तम परिणामों के लिए लगभग 80% आर्द्रता, 2000 घंटे की धूप और तेज़ हवाओं की अनुपस्थिति भी आवश्यक है।

- **What is the Status of Rubber Production in India?**
- **According to FAOStat 2019, India is the fourth largest producer and consumer of Rubber in the World.**
- **Consumption:**
 - **Most of the rubber consumption came from the transportation sector, followed by the footwear industry.**

- **भारत में रबर उत्पादन की स्थिति क्या है?**
- **FAOStat 2019 के अनुसार, भारत दुनिया में रबर का चौथा सबसे बड़ा उत्पादक और उपभोक्ता है।**
- **उपभोग:**
- **रबर की अधिकांश खपत परिवहन क्षेत्र से होती है, उसके बाद फुटवियर उद्योग का स्थान आता है।**

- **Distribution:** The first rubber plantations in India were set up in 1895 on the hill slopes of Kerala.
- However, rubber cultivation on a commercial scale was introduced in 1902.
- **Kerala** is the **largest producer** of natural rubber in India.
 - **Major areas:** Kottayam, Kollam, Ernakulam, Kozhikode districts produce practically all the rubber of this state.
- वितरण: भारत में पहला रबर बागान 1895 में केरल की पहाड़ी ढलानों पर स्थापित किया गया था।
- हालाँकि, व्यावसायिक पैमाने पर रबर की खेती 1902 में शुरू की गई थी।
- केरल भारत में प्राकृतिक रबर का सबसे बड़ा उत्पादक है।
- प्रमुख क्षेत्र: कोट्टायम, कोल्लम, एर्नाकुलम, कोझिकोड जिले इस राज्य के व्यावहारिक रूप से सभी रबर का उत्पादन करते हैं।

-
- **Tamil Nadu:**
 - Nilgiri, Madurai, Kanniyakumari, Coimbatore and Salem are the chief rubber producing districts of Tamil Nadu.
 - **Karnataka:**
 - Chikmagalur and Kodagu are the main producing districts.
 - **Tripura, Assam, Andaman and Nicobar, Goa** etc are some other rubber producing States.
-
- तमिलनाडु:
 - नीलगिरि, मदुरै, कन्नियाकुमारी, कोयंबटूर और सेलम तमिलनाडु के प्रमुख रबर उत्पादक जिले हैं।
 - कर्नाटक:
 - चिकमगलूर और कोडागु प्रमुख उत्पादक जिले हैं।
 - त्रिपुरा, असम, अंडमान और निकोबार, गोवा आदि कुछ अन्य रबर उत्पादक राज्य हैं।

Bottas and Zhou to stay with Alfa Romeo for 2024 season

Alfa Romeo is keeping an unchanged driver line-up for the third year running after announcing on Thursday that Valtteri Bottas and Zhou Guanyu will stay for the 2024 season. The extension will allow Zhou, the first Chinese driver in F1, to finally race at his home No. 1 in Shanghai after it was cancelled in the 2022 and 2023 seasons.

UP FOR IT
Davis Cup not played on rankings, we have come to compete, Tahir

Morocco skipper Mehdi Tahir (right, in pic) said his team was determined to do well against India in the World Group II tie in Lucknow during the weekend. "Davis Cup is not played on rankings. We have come here to compete. We may be the underdogs, but matches are not won on paper by rankings, it's won on the court."

Mendis and Asalanka script a thrilling win

The Lankan No. 3 anchors the chase with a 87-ball 91 before the left-hander holds centre stage and takes the team home off the final ball; Rizwan, Iftikhar's knocks not enough for Pakistan

ASIA CUP
Dhruva Prasad
COLOMBO

After displaying a clinical approach in its run-chase, Sri Lanka's nerves showed towards the end in a two-wicket win over Pakistan at the R. Premadasa Stadium here on Thursday as it booked a date with India in the final of the Asia Cup. The host lost five wickets for 36 runs and was forced to scramble over the line, into the teeth of a thrilling final over, bowled by Zaman Khan.

Defending seven runs, the debutant conceded just two runs off the first four balls before the ball took the edge of Charith Asalanka's blade and went for a boundary. With two needed off the last delivery, Zaman fatally strayed on the pads and the left-hander flicked it for a couple amidst the deafening roar of a capacity crowd.

Before the chaos, Kusal Mendis and Sadeera Samarawickrama's 100-run partnership for the third wicket was a lesson in setting up a chase. The duo ran hard to pick up the ones and twos when the spinners edged in tandem and hit the odd boundary when they missed their lengths to ensure that the asking rate never got out of hand.

The injection of intent came from openers Kusal Perera and Pathum Nissan-

Star performer: Kusal Mendis powered the chase with a superb knock, pushing Rizwan's effort earlier in the day to the background. AP

ka, who fetched a flurry of boundaries with the aim to keep abreast of the DLS par score in a rain-hit game.

Earlier, after electing to bat following a two-hour 45-minute delay in the start of play due to rain, Pakistan found itself floundering at 130 for five in the 28th over when the hosts, sweeping his flighted deliveries for a six and a four. Mathewska Pathirana was driven and pulled for two boundaries in one over. Maheesh Theekshana, who injured his hamstring while trying to save a boundary, limped through the

tan ransack 122 off 86 after the interruption.

The pitch seemed to have eased up under the covers as Rizwan and Iftikhar cut loose in the first over of pacer Pramod Madushan's second spell, laying into him with a six each. Rizwan showed Dunieth Wellalage no respect in the following over, sweeping his flighted deliveries for a six and a four. Mathewska Pathirana was driven and pulled for two boundaries in one over. Maheesh Theekshana, who injured his hamstring while trying to save a boundary, limped through the

last three overs of his spell and went for 12 runs off his last.

When Madushan's slower deliveries became too predictable at the death, Iftikhar tonked him for a six to complete a 74-ball century stand with Rizwan, which wasn't enough at the end.

With only five ODIs - Friday's match, the final and three against Australia - before the World Cup warm-ups towards the month-end, India may opt to play a full-strength side. Still, Mohammed Shami getting game-time and Bumrah taking it easy is also crucial with an eye on

Suryakumar could get a chance against Bangladesh

Amol Karhadkar
COLOMBO

Suryakumar Yadav turned 33 on Thursday. But more than the birthday boy, a fellow Mumbaitkar was in the spotlight during India's optional training session at the R. Premadasa Stadium. Shreyas Iyer, who had not left the team hotel following a back spasm before the match against Pakistan last Sunday, knocked a few balls before facing the net bowler.

The stylish batter's return to the park was heartening. After all, in a tournament when almost all the boxes have been ticked for India, his back flaring up - days after returning to competitive cricket following a back surgery - has been the only area of concern.

Despite returning to the practice arena, Shreyas is unlikely to be drafted in for the last Super Four game against Bangladesh on Friday.

Resting some players India could also be tempted by giving him a chance. The choice between Aar Patel, who looked rusty with the ball against Sri Lanka - and Shardul Thakur at No. 8 will depend on the nature of the pitch.

Bangladesh, while, will have to end yet a forgettable campaign on a high. However, the job will be more difficult than it appears, with Mushtaqur Rahim also joining the long list of unavailable players.

The teams (from): India: Rohit Sharma (Capt.), Hardik Pandya, Virat Kohli, Shreyas Iyer, KL Rahul, Shubman Gill, Suryakumar Yadav, Thakur Varma, Ishan Kishan, Ravindra

Impact player: Suryakumar, left, has the credentials to change a game's outcome. AFP

the World Cup. It will be interesting to see if India hands a belated birthday gift to Suryakumar by giving him a chance. The choice between Aar Patel, who looked rusty with the ball against Sri Lanka - and Shardul Thakur at No. 8 will depend on the nature of the pitch.

Rohan Bopanna - Indian tennis' consummate team man who found the sweet spot

DAVIS CUP
N. Sudarshan
LUCKNOW

One of the biggest dilemmas elite sportspersons face is about the timing of their retirement. Ash Barty walked away at 25 while being World No. 1 and the defending champion in a two of the three Majors. Roger Federer - and potentially Rafael Nadal - stopped only when the body couldn't take it any longer.

Rohan Bopanna seems to have found the sweet spot. The doubles star's decision to end his Davis Cup journey with the World Group II tie against Morocco this weekend comes at a time when he is ranked No. 7 in the world - his highest since Oct. 2013. And two of the five Slam finals he has reached in his career have come in 2023.

But, at 43, he knows that

the body can do with a few extra weeks of rest, especially when he wants to prolong his ATP Tour career - a bit more. The chance to end it at home has only added to the allure.

"I certainly admire his longevity," former India Davis Cup captain Anand Amritraj told *The Hindu*. "To be 43 and be able to play at this level is incredible. Having had him on my team for five years, I can say he's a great guy. He has always helped when I had to make decisions. He knew the players better than I did. Overall, a very fine person."

Somdev Devvarman, one of India's foremost singles players and Bopanna's teammate for nearly a decade, said the latter was a consummate team man. He also recalled some of his famous singles wins to drive home the point.

"I distinctly remember the away match in South

Marathon man: To be 43 and be able to play at this level is incredible, says Anand Amritraj about Bopanna. SANDEEP SAREENA

played singles with me. He was a mainstay, was always my senior and looked out for us."

The loss of such a player would leave a big hole, Amritraj said. "Whether he played doubles with Leander [Paes], Saketh [Myneni] or Yuki [Ikahambri], as captain, could always rely on that one point," he said.

In light of the extremely humid conditions prevailing in Lucknow, the start times have been pushed back by two hours. Saturday's matches will begin at 2 p.m. instead of noon and on Sunday, the action will start at 1 p.m.

Bopanna, Nagal, Bhambri, Mukund and Dipavly will line up as the hosts while Benchetrit, Diml, Mounier, Ahouda and Lizarazu will lead the visitors' charge.

"It was fairly sure that we had that point in the bag, the boys were happy. But there's nobody at this point to step into his shoes."

Devvarman, however, felt that it was time for the younger lot to redouble their efforts.

"He has given a lot for the country. Playing 50 sets is crazy. Now, the rest have to step up. The 14 and 15-year-olds should see this as a massive opportunity to be the country's next flag-bearer."

Wenger optimistic about setting up academy in India

Erica Trust of India
PILIHITTI

Legendary football coach Arsene Wenger believes "cooperation" and "strong desire" between FIFA and AIFF will be the key to the success of a central academy in India. For which he would visit the country next month.

Wenger, who met All India Football Federation President Kalyan Chaudhry and secretary general Shaji Prabhakaran last month in Australia to finalise setting up the academy, said he was "optimistic" after the meeting.

"I would say that football is the most popular sport in the world and it looks like that one of the biggest countries in the world has access to football development," Wenger was quoted as saying in an AIFF release.

"The number is an advantage, but the organisation's task gets tougher. 1.4 billion people, I'd say it's a challenge, but a goldmine which, at the moment, we have not analysed or identified well," he said.

"That's why we need people inside the country who know where the talent is. This is why the cooperation between FIFA and the AIFF will be absolutely vital, with a strong desire," he added.

Wenger said apart from identifying talent, AIFF will have to "take charge" of education. "Overall, it's

Wenger, FIEF PHOTO

based on two things. First, it's identifying talent. And then the quality of the education programme and the coaching is absolutely vital. The AIFF has to take charge of the education with us and we need good cooperation," he said.

"We will need to work together with the AIFF to identify the talent first. And after that we have to group the best with the best."

"Under that, you have the grass-roots game for the whole country. The starting point is to identify the talent in October. Wenger said despite cricket being India's No. 1 sport, there is enough room for other sports too.

"I don't see why India would not be on the world map with the number of players. It's a sporting country," he said.

Sachin Tendulkar was a genius from day one, says Muralitharan

▲ Sri Lankan spin legend Muttiah Muralitharan said Sachin Tendulkar was a "genius from day one" and no cricketer can be like the Indian batting maestro. Muralitharan told *ANI* that the upcoming biopic '800' is not only about his cricket but also about what happened beyond the game.

Opposition wants to crush Sanatan, attack us across country, need to stop them: PM

Opp alliance seeking to push country back into 1,000 years of slavery: Modi

ANAND MOHAN J & JAYPRAKASH NAIDU
BHOJPAL, RAIPUR, SEPTEMBER 14

IN HIS first public remarks on the Sanatan Dharma row, Prime Minister Narendra Modi Thursday accused the Opposition INDIA alliance of seeking to destroy it, and urged people to be vigilant against "attacks on us across the country". In a speech after inaugurating ₹5,51,000 crore worth industrial projects in Bina city of poll-bound Madhya Pradesh, Modi said: "Today, these people have

started speaking openly. Tomorrow, these people are planning and will continue to plan attacks on us across the country. Every follower of Sanatan, everyone who loves this country, loves the soil of this country... everyone needs to be vigilant. They want to crush Sanatan and push this country back into 1,000 years of slavery. But together, we must stop such forces. With the power of our organisation and a united front, we must thwart their plans. We must render their intentions futile with a united effort." Later, at a speech in Raigarh, he said: "Today, these people have

KOKERNAG, NEW DELHI, SEPTEMBER 14

A DAY after two Army officers and a Deputy Superintendent of Police were killed in a gunbattle in Anantnag district of South Kashmir, the search operation to track the militants continued amid intermittent firing on Thursday.

According to sources, Israeli Heron UAVs, quadcopters and sniffer dogs were deployed in the dense forest area to aid the search, which resumed at first light on Thursday. Para (Special Forces) commandos and additional troops were absorbed in. Sources said the neighbouring Rashtriya Rifles units have been alerted too.

Y K SINGH: WORLD MUST ISOLATE PAK "UNLESS WE isolate Pakistan globally, they will think it is business as usual... We have to impress on the international community to isolate them. They need to be told that normal ties cannot be restored unless they start behaving themselves." Union MoS and former Army Chief Gen. V K Singh (retired) said. *ANI*

In its first statement, the Army confirmed the deaths of its two officers, and said two more were injured. CONTINUED ON PAGE 4

CO's last words to wife: Heading for op, will call

SAURABH PARASHAR & MAN AMAN SINGH CHHINA
CHANDIGARH, SEPTEMBER 14

IT WAS a routine phone call, the kind Jagmeet Kaur would do just before she left for the Government Senior Secondary School in Mohali Hills, Punjab, where she is an Economics lecturer. On the other end, her husband, Col Manpreet Singh, sounded distracted. "Abhi operation mai jau raha hai (I am heading into an operation now...)", he called back.

That was the last Jagmeet heard from her husband. Hours later, on Wednesday, Col Singh, Commanding Officer of 19 Rashtriya Rifles, who was leading a joint team of the J&K Police and the Army during an opera-

tion in the forests of Kokeerag in Anantnag district, fell in a hail of bullets. He was killed along with Major Aashish Bhoarchak and Deputy Superintendent of J&K Police Himayun Khazami. Late Wednesday, as Singh's father-in-law Jagdeep Singh Grewal got to know of the incident in Anantnag, he made the painful decision of shielding his daughter Jagmeet from the news until the following morning. "Jagmeet and her two children (a 6-year-old and a 2-year-old) came home from Kashmir only a fortnight ago after a brief stay with Manpreet," said Grewal.

Mexican Congress holds hearing on UFOs featuring alleged 1000-yr-old 'alien bodies'

REUTERS

MEXICO CITY, SEPTEMBER 14

MEXICAN LAWMAKERS heard testimony that "we are not alone" in the universe and saw the alleged remains of non-human beings in an extraordinary hearing marking Latin American country's first congressional event on UFOs.

In the hearing on Tuesday on FANI, the Spanish acronym for

what are usually now termed Unidentified Anomalous Phenomena (UAP), politicians were shown two artifacts that Mexican journalist and UFO enthusiast Jaime Maussan claimed were corpses of extraterrestrials.

The specimens were not related to any life on Earth, Maussan said. The two tiny "bodies," displayed in cases, have three fingers on each hand and elongated heads. Maussan said they were re-

covered in Peru near the ancient Nazca Lines in 2017.

He said that they were about 1,000 years old, analyzed through a carbon dating process by Mexico's National Autonomous University (UNAM).

Similar such finds in the past have turned out to be the remains of mummified children.

Maussan said it is the first time such evidence was presented.

Jose de Jesus Zalce Benitez,

Director of the Scientific Institute for Health of the Mexican navy, said X-rays, 3-D reconstruction and DNA analysis had been carried out on the remains. "I can affirm that these bodies have no relation to human beings," he said.

UNAM Thursday republished a statement issued in 2017, saying work by its National Laboratory of Mass Spectrometry with Accelerators was intended to determine the age of the samples.

Remains of the so-called non-human on display during a briefing at the San Lazaro Legislative Palace, in Mexico. *Reuters*

15th September 2023

NATIONAL ENGINEERS DAY

“

*No one person can shape
the life of another. Your success
and happiness depends upon
your own self. Think for yourself a
nd have a plan of life.*

SIR M VISVESVARAYA

”

Every year on **15th September**, India along with Sri Lanka and Tanzania celebrate National Engineer's day to recognise and honour the **achievements of the great engineer Mokshagundam Visvesvaraya**.

The day is observed to **commemorate the great work of engineers** and to encourage them for improvement and innovation.

It is different from the **World Engineers' Day** celebrated annually by **UNESCO** on 4th March.

- Every year on 15th September, India along with Sri Lanka and Tanzania celebrate National Engineer's day to recognise and honour the achievements of the great engineer Mokshagundam Visvesvaraya.
- The day is observed to commemorate the great work of engineers and to encourage them for improvement and innovation.
- It is different from the World Engineers' Day celebrated annually by UNESCO on 4th March.
- हर साल 15 सितंबर को भारत, श्रीलंका और तंजानिया के साथ मिलकर महान इंजीनियर मोक्षगुंडम विश्वेश्वरैया की उपलब्धियों को पहचानने और सम्मान देने के लिए राष्ट्रीय इंजीनियर दिवस मनाता है।
- यह दिन इंजीनियरों के महान कार्यों को याद करने और उन्हें सुधार और नवाचार के लिए प्रोत्साहित करने के लिए मनाया जाता है।
- यह यूनेस्को द्वारा हर साल 4 मार्च को मनाए जाने वाले विश्व इंजीनियर्स दिवस से अलग है।

- Born in Karnataka in **1861**, he studied Bachelor of Arts (BA) from the University of Mysore and then **studied civil engineering from the College of Science in Pune** and went on to become one of the most eminent engineers in the country.
- 1861 में कर्नाटक में जन्मे, उन्होंने मैसूर विश्वविद्यालय से बैचलर ऑफ आर्ट्स (बीए) की पढ़ाई की और फिर पुणे में कॉलेज ऑफ साइंस से सिविल इंजीनियरिंग की पढ़ाई की और देश के सबसे प्रतिष्ठित इंजीनियरों में से एक बन गए।

- He was an **engineering pioneer of India** whose genius **reflected in harnessing of water resources and building and consolidation of dams** across the country.
- His work was becoming so popular that the **Government of India sent him to Aden (Yemen)** to study water supply and drainage systems in **1906-07**.
- वह भारत के एक इंजीनियरिंग अग्रणी थे जिनकी प्रतिभा जल संसाधनों के दोहन और देश भर में बांधों के निर्माण और सुदृढीकरण में झलकती थी।
- उनका काम इतना लोकप्रिय हो रहा था कि भारत सरकार ने उन्हें 1906-07 में जल आपूर्ति और जल निकासी प्रणालियों का अध्ययन करने के लिए अदन (यमन) भेजा।

- He served as the **Chief Engineer of Mysore State in 1909** and as the **Diwan of the princely state of Mysore in 1912**, a position he held for seven years.
 - As the Diwan, he made an immense contribution towards the overall development of the state.
- He was **knighthed as a Knight Commander** of the British Indian Empire by King George V for his contributions to the public good in **1915**.

उन्होंने 1909 में मैसूर राज्य के मुख्य अभियंता और 1912 में मैसूर रियासत के दीवान के रूप में कार्य किया, इस पद पर वे सात वर्षों तक रहे।

दीवान के रूप में उन्होंने राज्य के समग्र विकास में बहुत बड़ा योगदान दिया।

1915 में जनता की भलाई में उनके योगदान के लिए किंग जॉर्ज पंचम द्वारा उन्हें ब्रिटिश भारतीय साम्राज्य के नाइट कमांडर के रूप में नाइट की उपाधि दी गई थी।

- He was an Engineer who had **planned the Indian Economy in 1934.**
- He was awarded an Honorary Membership of **London Institution of Civil Engineers** for an unbroken 50 years.
- He was conferred India's highest honour, the **Bharat Ratna in 1955.**
- He **died in 1962 in Bengaluru, Karnataka.**

- वह एक इंजीनियर थे जिन्होंने 1934 में भारतीय अर्थव्यवस्था की योजना बनाई थी।
- उन्हें लगातार 50 वर्षों के लिए लंदन इंस्टीट्यूशन ऑफ सिविल इंजीनियर्स की मानद सदस्यता से सम्मानित किया गया।
- उन्हें 1955 में भारत के सर्वोच्च सम्मान, भारत रत्न से सम्मानित किया गया था।
- उनकी मृत्यु 1962 में बेंगलुरु, कर्नाटक में हुई।

- **Books Written by him:**

- **'Reconstructing India' and 'Planned Economy of India'.**

- **Major Contributions:** During the course of his professional life, he has contributed a lot towards society by being part of several notable construction projects in **Mysore, Hyderabad, Odisha and Maharashtra.**

- उनके द्वारा लिखित पुस्तकें:
- 'भारत का पुनर्निर्माण' और 'भारत की नियोजित अर्थव्यवस्था'।
- प्रमुख योगदान: अपने पेशेवर जीवन के दौरान, उन्होंने मैसूर, हैदराबाद, ओडिशा और महाराष्ट्र में कई उल्लेखनीय निर्माण परियोजनाओं का हिस्सा बनकर समाज के लिए बहुत योगदान दिया है।

- He was the **chief engineer responsible for the construction of the Krishna Raja Sagara Dam** in Mysore.
- After the devastating floods (Musi River) in Hyderabad in 1908, he designed a **drainage system** to protect the city from these floods in the future.
- He is the one who **designed a plan for road construction between Tirumala & Tirupati.**

- वह मैसूर में कृष्ण राजा सागर बांध के निर्माण के लिए जिम्मेदार मुख्य अभियंता थे।
- 1908 में हैदराबाद में विनाशकारी बाढ़ (मुसी नदी) के बाद, उन्होंने शहर को भविष्य में इन बाढ़ों से बचाने के लिए एक जल निकासी प्रणाली तैयार की।
- उन्होंने ही तिरुमाला और तिरुपति के बीच सड़क निर्माण की योजना तैयार की थी।

He played a key role in developing a system to **protect Visakhapatnam port from sea erosion.**

He also commissioned several new **Railway lines in Mysore state.**

He had designed and carried out the **waterworks for the Municipality of Sukkur in 1895.**

उन्होंने विशाखापत्तनम बंदरगाह को समुद्री कटाव से बचाने के लिए एक प्रणाली विकसित करने में महत्वपूर्ण भूमिका निभाई।

उन्होंने मैसूर राज्य में कई नई रेलवे लाइनें भी चालू कीं।

उन्होंने 1895 में सुक्कुर नगर पालिका के लिए जलकार्यों को डिजाइन और कार्यान्वित किया था।

- He was **responsible for founding** the Mysore soap factory, the Mysore Iron & steel works (Bhadravathi), Sri Jayachamarajendra Polytechnic Institute, The Bangalore Agricultural University, and the State Bank of Mysore.
- वह मैसूर साबुन फैक्ट्री, मैसूर आयरन एंड स्टील वर्क्स (भद्रावती), श्री जयचामाराजेंद्र पॉलिटेक्निक इंस्टीट्यूट, बेंगलोर कृषि विश्वविद्यालय और स्टेट बैंक ऑफ मैसूर की स्थापना के लिए जिम्मेदार थे।

FRANCE BANS SALE OF iPhone 12: WHY THE MOVE, ITS IMPLICATIONS

FRANCE'S RADIATION watchdog has banned sales of Apple's iPhone 12 after tests showed the smartphone breaching European radiation exposure limits.

The Agence Nationale des Fréquences (ANFR) said on Tuesday the model's Specific Absorption Rate (SAR) was higher than legally allowed. While a software update could fix the problem, if unresolved, the ANFR said it would order a recall of the device across France.

Standard Absorption Rate

SAR refers to the dose of energy that the body absorbs from any source of radiation. It is expressed as watts per kilogram of body weight.

Mobile phones transmit radio frequency waves, and thus create electromagnetic fields. However, unlike radiation caused due to radioactive decay (such as that from nuclear waste), phones cannot cause changes to cells in the human body or cause cancer.

Danger this poses

The main issue caused by a phone's "non-ionizing" type of radiation is the heating up of body tissue. Above set limits, and depending on the duration of exposure, this can lead to health effects such

as burns or heat stroke.

Tests found a SAR of 5.74 watts per kilogram during tests of the iPhone 12 being held in the hand or kept in a trouser pocket against the EU standard of 4.0 watts per kilogram. However, given that the threshold is set well below what might actually be dangerous, this represents little risk to humans.

Apple's response

Apple has rejected the agency's findings and said it would contest the results of ANFR's review. The company said it had provided ANFR with multiple Apple and independent third-party lab results proving its compliance with all applicable SAR regulations and standards in the world.

Implications beyond France

Given the iPhone 12 has failed to meet European Union standards, more sales bans may be coming elsewhere. ANFR will pass on its findings to other EU regulators.

Thus far, Belgian authorities have commenced their own review, while Dutch and Italian regulators have said they are "monitoring the situation. The German regulator has said that the French decision could act as a guide for Europe as a whole.

REUTERS

After Apple inclusion of NavIC, govt considers making homegrown navigation tech mandatory

SOUMYARENDRA BARIK
NEW DELHI, SEPTEMBER 14

AFTER CONVINCING Apple to support navigation technology NavIC in some new iPhone 15 models, the Union government may mandate manufacturers to embed the homegrown GPS alternative in all smartphones sold in India by 2025.

All 5G phones would be required to support NavIC — or Navigation with Indian Constellation — by January 1, 2025, and other phones by December 2025, Minister of State for Electronics and Information Technology Rajeev Chandrasekhar told *The Indian Express* Thursday.

To increase the adoption of the homegrown navigation system, the government is also considering offering additional incentives to smartphone makers in the next round of its production-linked in-

EXPLAINED

E. The roadmap for NavIC

CURRENTLY, ONLY a few smartphone makers support India's homegrown navigation alternative to GPS, which, the government says, can offer better resolution output for places in the country and adjoining areas. Apple's adoption of NavIC could help with its mainstream adoption. Now, the government wants to encourage sourcing of NavIC-supporting chips that are made or designed in India under the PLI scheme.

centive (PLI) scheme if they use chips designed or manufactured in India which support NavIC technology, he said.

"In line with the incentives that we have announced under the IT hardware PLI, where cash-back to companies can significantly go up if they use India-designed or -manufactured chips in their systems, we will extend the same idea to the smartphone

PLI as well for using domestic chips that support NavIC," Chandrasekhar said.

"Increasingly we will make it mandatory as it is already in the automobile segment, we will make it almost mandatory that all the devices that use GPS use the NavIC chipsets," he said. He clarified that the requirement will only be to include NavIC and not exclude other GPS systems.

Currently, only a handful of smartphones — from manufacturers such as Poco, Vivo and Xiaomi — support NavIC.

Developed by the Indian Space Research Organisation, NavIC was approved in 2006 at a cost of \$174 million but became operational only by 2018. It is India's attempt at building an independent standalone navigation satellite system, something rival China has already done.

Earlier this week, as Apple announced its latest iPhone lineup, it said the two 'pro' model phones will support NavIC. This is the first time Apple has added support for NavIC to any of its iPhone models.

"But the chip that Apple is using for navigation and positioning is being designed by Qualcomm, and we want to create an incentive structure that will encourage companies under the PLI schemes to use NavIC-

supporting chips designed or made in India," Chandrasekhar said, adding that incentives similar to those under the IT hardware PLI could be offered to smartphone makers.

Under the IT hardware PLI scheme, companies that manufacture laptops, computers and servers and source locally made components will also get additional incentives under the restructured scheme.

The measure under consideration could also extend beyond incentives, with the government mandating that smartphones manufactured in India must support NavIC technology.

It is learnt that Apple's support for NavIC came after months of discussions between the government and manufacturers. Companies were learnt to have pushed back initially, citing high research costs for integrating the technology.

Indian Regional Navigation Satellite System

IRNSS (NavIC) is designed to provide accurate real-time positioning and timing services to users in India as well as region extending up to 1,500 km from its boundary

NAVIGATION CONSTELLATION CONSISTS OF SEVEN SATELLITES

3 in geostationary earth orbit (GEO) and **4** in geosynchronous orbit (GSO) inclined at 29 degrees to equator

Each sat has three rubidium atomic clocks, which provide accurate locational data

IT WILL PROVIDE TWO TYPES OF SERVICES

1 Standard positioning service | Meant for all users

2 Restricted service | Encrypted service provided only to authorised users (military and security agencies)

Applications of IRNSS are:

Terrestrial, aerial and marine navigation; disaster management; vehicle tracking and fleet management; precise timing mapping and geodetic data capture; terrestrial navigation aid for hikers and travellers; visual and voice navigation for drivers

While **American GPS** has **24 satellites** in orbit, the number of sats visible to ground receiver is limited. In **IRNSS**, **four satellites** are always in geosynchronous orbits, hence always visible to a receiver in a region **1,500 km** around India

PROVIDES INDIA WITH ASSURED NAVIGATION SERVICE FOR VITAL CIVILIAN & MILITARY APPLICATIONS WITHOUT HAVING TO DEPEND ON ANOTHER COUNTRY; FIRST SATELLITE TO BE LAUNCHED ON JULY 1; RZEMAINING 6 BY 2015

IRNSS: INDIAN REGIONAL NAVIGATION SATELLITE SYSTEM

7 SATELLITES

3 GEOSTATIONARY

4 GEOSYNCHRONOUS

ORBIT ALTITUDE 36,000 KM

COST ₹ 1,420 CRORES

Covers India and up to **1,500** km beyond its borders

3 extremely accurate rubidium atomic clocks in each satellite

GPS receivers will not work; need special receivers (yet to be developed)

IRNSS provides Standard Positioning Service

Open to all users

Accuracy better than 20 metres

4 satellites in geosynchronous orbit – in pairs, move in two inclined orbits – appear from ground to travel in figure '8' – assist in accurate position determination

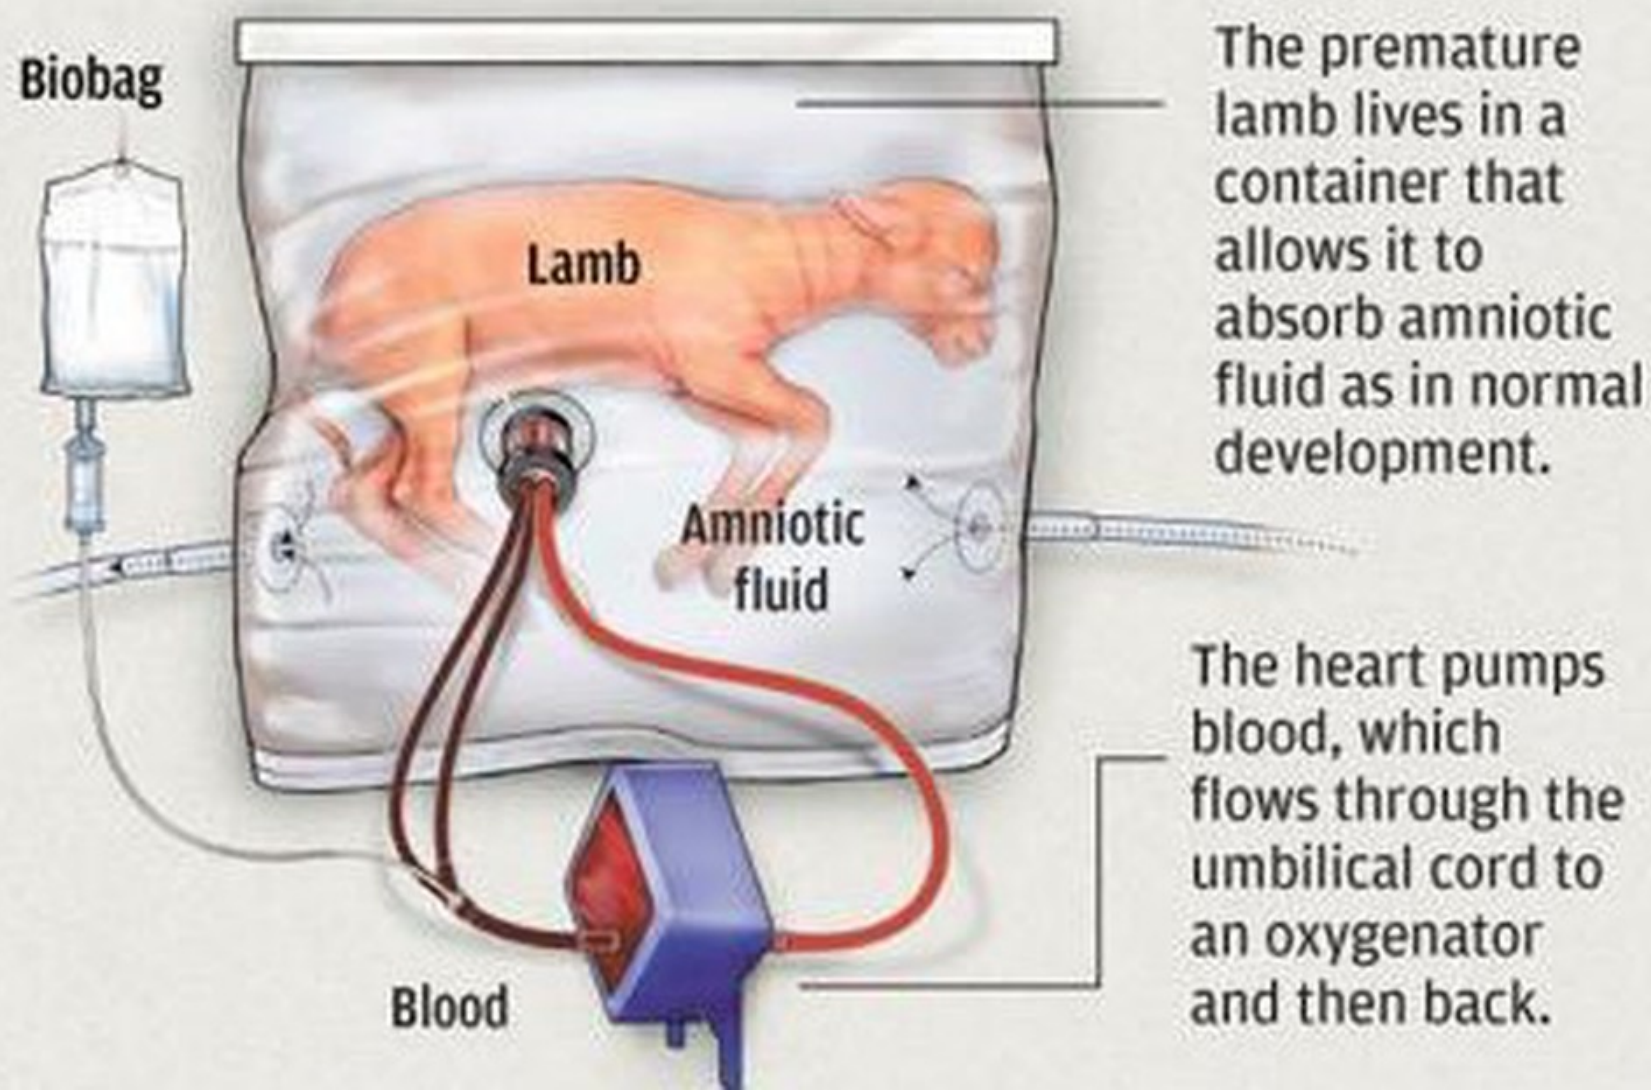

3 satellites in geostationary orbit – appear from ground to be at fixed positions in the sky

World's first artificial womb on its way

THE FIRST ARTIFICIAL womb capable of gestating a human baby will get one step closer to reality next week — a key scientific milestone that could offer hope for the thousands of extremely premature babies born in the US each year. The artificial placentas are fluid-filled pods intended to help struggling prematurely born infants develop like they would in prenatal state. **BLOOMBERG**

How the artificial womb works

Researchers are creating an artificial womb with a laboratory animal. Human testing is still several years away. The artificial wombs work through two separate systems:

World's First 'Artificial Womb Facility'

World's First 'Artificial Womb Facility'
To Grow 30,000 Babies A Year In Birth
Pods, Parents Can Design Child

The facility, which does not exist in real, is aimed to help countries suffering from population decline, the video claims.

EctoLife, the "world's first artificial womb facility" concept, which offers a way for parents to produce customised babies.

The facility will let parents design child's height, strength, intelligence upto 30,000 babies per year.

₹32,000

gap in pricing for iPhone 15 Pro between the Indian and the Dubai Market, as per prices announced

8-9 mn

India-assembled iPhones set to be exported in 2023, compared with 6.7 million in 2022

20%

of Indian iPhone demand met by Apple through imports; at least 2-3 years more before it gains scale

● Why are iPhones priced higher in India?

IT IS NOT just the iPhone 15 that has a marked difference in pricing for the India market and for markets like the US or UAE. The iPhone, from the start, has been more expensive in India than elsewhere. The reasons for the same are the higher import duty (at 22%) on pro models, customs duty on components, social welfare surcharge, a Goods and Services Tax (GST) of 18%, and a slight higher cost of assembly in India compared to countries like

China, among others.

Further, depreciation of India's currency also makes iPhones costlier here. Though Apple started manufacturing its iPhones in India six years ago, the supply chain development and production scale is much smaller compared to what it has in China. Besides, Apple in India sells through retailers, dealers, and distributors who tend to reserve a higher margin compared to the United States.

● Are the prices sharply different?

INDEED, THEY ARE, for some variants. There exists a large gap in the pricing of the iPhone 15's top-end variant in India, and in Dubai, Thailand, US and other regions. As per the prices revealed so far, there is almost a ₹32,000 price gap between India and Dubai.

To illustrate, the iPhone 15 Pro is priced at ₹134,900 in India, while the same model is available at about ₹97,000 (AED 4,299) in Dubai. In the US, it comes for \$999 (₹82,780).

In neighbouring China (mainland), a buyer must fork out RMB 7,999 (close to

₹92,170) if she were looking to acquire the 15 Pro.

It would prove even cheaper if she were to buy it in Hong Kong though, where the price tag reads HK\$ 8,599 (₹91,070).

And, as far as the base model of iPhone 15 is concerned, the price in India is at ₹79,900 whereas in the US and Dubai, the model is priced at ₹66,000 and ₹76,000, respectively.

In India, Apple is offering buyers the chance to pre-order the phone from September 15, 5:30 pm onwards.

The image features a dense arrangement of numerous circular woven baskets. Each basket is a masterpiece of traditional craftsmanship, showcasing a variety of vibrant colors including red, yellow, green, blue, purple, and white. The patterns are highly detailed and geometric, often featuring concentric circles, starbursts, and complex interlocking designs. The baskets are stacked and overlapping, creating a rich, textured visual field. In the upper left corner, there is a small yellow horizontal line above the text.

TRIFED Showcases India's Tribal
Craftsmanship at G20 Summit

- The recent 18th G20 Summit witnessed a captivating display of India's rich tribal heritage and craftsmanship, curated and presented by the Tribal Cooperative Marketing Development Federation of India (TRIFED), Ministry of Tribal Affairs.

Artifacts/Products

Description

Longpi Pottery:

- Originating from the village of **Longpi in Manipur**, the **Tangkhul Naga tribes** practise this unique pottery style.
- Longpi pottery stands out as it **doesn't rely on the potter's wheel; everything is hand-shaped or moulded.**
- The distinct grey-black cooking pots, sturdy kettles, and charming bowls are Longpi's trademarks, but new design elements are being introduced.

Chhattisgarh Wind Flutes:

- '**Sulur**' **bamboo wind flute** is a unique musical creation curated by the **Gond Tribe of Bastar in Chhattisgarh.**
 - It produces melodies through a simple one-handed twirl and has fish emblems, geometric lines, and triangles etched on its surface.
- The 'Sulur' serves utilitarian purposes, helping **tribal men ward off animals and guide cattle through jungles.**
- It showcases the Gond Tribe's ingenious craftsmanship, which is a **harmonious blend of artistry and functionality.**

Gond Paintings:

- Gond paintings reflect their **deep connection to nature and tradition.**
- They **start with dots, calculating image volume, which they then connect to form outer shapes filled with vibrant colours.**
- These artworks are deeply influenced by their social environment and they stand as a testament to the tribe's artistic ingenuity.

Gujarat Hangings:

- Curated by the **Bhil & Patelia Tribe in Dahod, Gujarat**, these wall hangings are rooted in ancient Gujarat art.
- Initially, the hangings were **dolls and cradle birds made of cotton cloth and recycled materials.**
 - The hangings now include mirror work, zari, stones, and beads, blending tradition with contemporary fashion.

Sheep Wool Stoles:

- Crafted by the **Bodh, Bhutia, and Gujjar Bakarwal tribes from Himachal Pradesh/Jammu & Kashmir.**
 - They use **pure sheep wool to make various clothing, including jackets, shawls, and stoles.**
 - Originally featuring monochromatic schemes of white, black, and grey, Tribal craftsmanship is undergoing a transformation with dual-coloured designs becoming popular.

Rajasthan Artistry:

- **Mosaic Lamps:**
 - Captures the **mosaic art style** and is crafted into lampshades and candle holders. When illuminated, they unleash a kaleidoscope of colours, adding vibrancy to any space.

Ambabari Metalwork:

- It is curated by the **Meena Tribe** and also embraces enamelling, a meticulous process that elevates metal decoration.
 - Today, it extends beyond gold to metals like silver and copper.

Meenakari Crafts:

- Meenakari crafts involve decorating metal surfaces with vibrant minerals, a tradition demanding exceptional skill, introduced by the Mughals.
 - This tradition demands exceptional skills as delicate designs are etched onto metal, creating grooves for colours to nestle in.

Gifts from India to G20 Leaders

- What are the Gifts Presented to the Leaders? Sandook: All the Gift items were meticulously packaged in a Sandook (chest) adorned with intricate brass detailing.
- This chest was handcrafted using Sheesham (Indian rosewood), known for its durability and distinctive grain pattern.

Aromatic and Culinary Delights:

The gift hamper included a pack of Saffron from Jammu and Kashmir, renowned as the world's most expensive spice, celebrated for its culinary and medicinal properties.

सुगंधित और पाक संबंधी प्रसन्नता:

उपहार बाधा में जम्मू और कश्मीर के केसर का एक पैकेट शामिल था, जो दुनिया के सबसे महंगे मसाले के रूप में प्रसिद्ध है, जो अपने पाक और औषधीय गुणों के लिए जाना जाता है।

- Pekoe Darjeeling and Nilgiri Tea are two illustrious gems from **India's tea tapestry**, epitomizing the delicate art of tea cultivation and infusion.

- **Araku Coffee:**

- Araku Coffee is the **world's first terroir-mapped coffee**, grown on organic and sustainable plantations in the **Araku Valley of Andhra Pradesh**.
- Farmers work by hand in small farms and **grow the coffee naturally**, without the use of machines or chemicals.

- अराकू कॉफ़ी:

- अराकू कॉफ़ी दुनिया की पहली टेरोइर-मैप्ड कॉफ़ी है, जो आंध्र प्रदेश की अराकू घाटी में जैविक और टिकाऊ वृक्षारोपण पर उगाई जाती है।
- किसान छोटे खेतों में हाथ से काम करते हैं और मशीनों या रसायनों के उपयोग के बिना प्राकृतिक रूप से कॉफ़ी उगाते हैं।

-
- Traditional Honey from the Sundarbans:
 - From the Sundarbans, the largest mangrove forest globally, located in the Bay of Bengal, came a special honey harvested by traditional honey collectors.
 - Besides being 100% natural and pure, Sundarban honey is also high in flavonoids (various compounds found naturally in many fruits and vegetables) and provides valuable health benefits.
-
- सुंदरबन से पारंपरिक शहद:
 - बंगाल की खाड़ी में स्थित विश्व के सबसे बड़े मैंग्रोव वन, सुंदरबन से, पारंपरिक शहद संग्राहकों द्वारा काटा गया एक विशेष शहद आया।
 - 100% प्राकृतिक और शुद्ध होने के अलावा, सुंदरबन शहद में फ्लेवोनोइड्स (कई फलों और सब्जियों में प्राकृतिक रूप से पाए जाने वाले विभिन्न यौगिक) की मात्रा भी अधिक होती है और यह मूल्यवान स्वास्थ्य लाभ प्रदान करता है।

Perfume from Kannauj:

•The Zighrana Ittar from Kannauj in Uttar Pradesh showcased India's **centuries-old tradition of crafting exquisite perfumes**, adding a sensory dimension to the gifts

- 
- The gift package also featured a Kashmiri Pashmina shawl sourced from the Changthangi goat, found only at elevations of 14,000 feet above sea level. The wool is collected by combing (and not shearing) the undercoat of this goat.

- 
- उपहार पैकेज में चांगथांगी बकरी से प्राप्त एक कश्मीरी पश्मीना शॉल भी शामिल था, जो समुद्र तल से केवल 14,000 फीट की ऊंचाई पर पाया जाता है। इस बकरी के अंडरकोट में कंघी करके (कतरकर नहीं) ऊन इकट्ठा किया जाता है।

- **Khadi Scarves:**

- The Khadi scarf, personally presented to each leader during their visit to the Rajghat, held immense symbolic value.
- Khadi, with its origins in India's independence movement and its evolution into a symbol of sustainable **fashion, epitomizes high-quality and eco-conscious clothing.**

- खादी स्कार्फ:

- राजघाट की यात्रा के दौरान प्रत्येक नेता को व्यक्तिगत रूप से भेंट किया गया खादी दुपट्टा अत्यधिक प्रतीकात्मक मूल्य रखता था।
- खादी, भारत के स्वतंत्रता आंदोलन में अपनी उत्पत्ति और टिकाऊ फैशन के प्रतीक के रूप में विकसित होने के साथ, उच्च गुणवत्ता वाले और पर्यावरण के प्रति जागरूक कपड़ों का प्रतीक है।

- **Commemorative Coins and Stamps:**

- In July 2023, the Prime Minister of India released **special coins and stamps to commemorate India's G20 Presidency** during the inauguration of Bharat Mandapam.
- These designs drew inspiration from India's G20 logo and the theme of 'Vasudhaiva Kutumbakam.'
- One of the postage stamps, rendered in gold color, took inspiration from the lotus, **India's national flower**, as represented in the G20 Presidency logo.

-
- स्मारक सिक्के और टिकटें:
 - जुलाई 2023 में, भारत के प्रधान मंत्री ने भारत मंडपम के उदघाटन के दौरान भारत की G20 प्रेसीडेंसी की स्मृति में विशेष सिक्के और टिकट जारी किए।
 - इन डिज़ाइनों ने भारत के G20 लोगो और 'वसुधैव कुटुंबकम' की थीम से प्रेरणा ली।
 - सोने के रंग में प्रस्तुत डाक टिकटों में से एक, भारत के राष्ट्रीय फूल कमल से प्रेरित है, जैसा कि जी20 प्रेसीडेंसी लोगो में दर्शाया गया है।

A group of people are clapping in a dimly lit room. The focus is on the hands and forearms of several individuals, some in the foreground and some blurred in the background. The lighting is soft and moody, with a blueish tint. In the top left corner, there is a small orange rectangular graphic element.

Thank you
guys.
